

# What is Project 2025?

Project 2025 is a 900+ page plan for the next presidential administration developed by the Heritage Foundation. It has four main parts: a guide for policies in the Trump administration, a database of potential staff members, a training for candidates through the “Presidential Administration Academy”, a list of actions in the first 180 days of office.

## Who Created It

Project 2025 is led by the Heritage Foundation, backed by over 100 conservative organizations and supported by Trump’s transition team. These groups work to secure power for the wealthy, not for regular families like ours.

Here is a breakdown of why Project 2025 is dangerous for families like ours:

## Project 2025 attacks immigrants

Project 2025 increases detention, deportation, and family separation, ends birthright citizenship, bans, the legal right to asylum at the border, eliminates green card backlogs and suspends applications, guts H1B approvals, harming jobs, businesses, and economies, repeals T and U visas for trafficking and domestic violence victims, repeals humanitarian relief programs like Temporary Protected Status (TPS), and creates mass raids and immigrant detention camps.

## Project 2025 attacks women

Project 2025 bans all abortions and abortion medications, blocks life-saving medical care for women and girls, criminalizes medical professionals who provide reproductive care, replaces the Reproductive Healthcare Access Task Force with a “pro-life task force”, and mandates states to report miscarriages and abortions to the federal government.

## Project 2025 attacks the LGBTQIA+ community

Project 2025 targets schools protecting the rights of trans students, cuts Medicaid funding for hospitals offering gender-affirming care for trans adolescents, bans transgender people from military service, abolishes the president’s Gender Policy Council, directs the Department of Health and Human Services to adopt a “biblically based” definition of marriage and family, and requires the Department of Justice to

defend the first amendment rights of those who discriminate against LGBTQIA+ individuals.

## Project 2025 attacks education

Project 2025 abolishes the Department of Education, reduces student visa programs and ends in-state tuition for immigrants, eliminates Head Start, supports book bans, bans critical race theory, terminates President Biden's student loan relief program, and defunds schools by ending Title I.

## Project 2025 attacks workers and the middle class

Project 2025 eliminates unions, cuts taxes for the wealthy, raises taxes on middle class families, erodes workplace safety, allows employers to slash overtime, curtails free speech rights, and weakens minimum wage protections.

## Project 2025 attacks public health

Project 2025 guts Medicare and Social Security, ends Obamacare, eliminates caps on prescription drug prices, bans Medicare from negotiating lower drug prices, and cuts food assistance and other critical social benefits.
